YOUSEF ABUAQEL

FULL STACK WEB DEVELOPER

OVERVIEW

A passionate and detail-oriented developer with a robust foundation in backend technologies, including Node.js, Express.js, MongoDB, and PostgreSQL, complemented by frontend expertise in React.js, JavaScript, HTML, and CSS. I am committed to leveraging my technical skills to create efficient, user-friendly web applications that deliver exceptional user experiences. I seek dynamic opportunities to contribute to innovative projects and continuously expand my knowledge and expertise in modern web development.

EDUCATION

Full-Stack Web development Bootcamp
Oct 2023 – Mar 2024

Meraki Academy

22-week Immersive Full-Stack Web Development Bootcamp with over 700+ hours of coding, building projects, and solving problems.

PROJECTS

NutriFit (Team)
NutriFit Project (Demo)

A comprehensive digital health platform that supports individuals on their journey to optimal health and fitness. The platform offers three essential services:

- **Personalized Meal Plans:** NutriFit provides users with a wide range of healthy meal options, complete with detailed nutritional information for each dish, making it easier to make informed dietary choices.
- **Direct Trainer Communication:** Users can engage directly with their trainers, receiving tailored advice and support to help them reach their fitness goals.
- **Virtual Gym Experience:** Coaches can deliver customized workout plans and fitness information to groups of users through a virtual gym, fostering a sense of community and accountability.

Technologies:

React.js, Socket.io, Redux, JavaScript, HTML, CSS, Node.js, Express.js, MongoDB, PostgreSQL

MERAKI_Academy_Project_5 (GitHub)

Friendly (Solo)
Friendly Project (Demo)

A social networking platform that enhances user engagement and connection through interactive features. It offers the following:

- **Content Sharing:** Users can easily publish posts, photos, and short videos.
- **Interactive Features:** Engage with content through likes and comments.
- **Follow System:** Allows users to follow others and view their content.
- **Private Messaging:** Mutual followers can communicate privately through direct messages.
- **Trending Posts:** Displays a list of popular and trending posts.
- **Customizable Profiles:** Users can personalize their profiles with profile pictures and a bio.

Technologies:

React.js, Socket.io, Redux, JavaScript, HTML, CSS, Node.js, Express.js, MongoDB
